This app is used by officers and citizens to manage their cases and evidences
Occupation or position held: Frontend developer
Technology: React js, Typescript
Link: https://evidence.com

04/2022 → + **PRODUCTPINE (FREELANCE VIA AIOSPHERE AGENCY) (HTTPS://PRODUCTPINE.COM) (VIETNAM)**

SUMMARY

BIO:

⚡ **Senior Frontend Engineer** | **React, Vue, Angular** | **Exploring GenAI** for smarter UIsWith **8+ years** in **frontend development**, I've been building **responsive**, **scalable**, and **intuitive web applications** across startups and enterprises **since 2017.** My core stack revolves around **React**, but I've also shipped production-ready apps in **Vue** and **Angular**, adapting to each project's needs.I care deeply about clean code, **smooth user experiences**, and **scalable design systems**. I've mentored teams, built **internal UI libraries**, and contributed to **frontend architecture decisions** that helped teams move faster without breaking things.

🧠 Recently, I've started **exploring Generative AI** and its intersection with frontend. My side project **AI Interview generates** smart interview questions using LLMs — blending product thinking with modern AI.

💼 Some of the places I've built things:
– **Swisscom (Netherlands)**: Mobile apps + Web apps + Angular/Vue in a microservice environment
– **Productpine (Netherlands):** React, TypeScript, Storybook, CI/CD pipelines
– **Axon & Papaya (Vietnam):** React, React Native, Flutter, Node.js– Freelance & early startups since 2017

🔧 Tech I enjoy:
React · Vue · Angular · Next.js · TypeScript · Supabase · Edge Functions · Serverless · QStash ·

02/2023

Frontend Team Leader BMS, and team member Store Front

Dates: 04/2022 - 02/2023
Project: **Storefront**
Occupation or position held: Frontend developer
Technology: Nextjs, Strapi, React js, Typescript, Vercel
Link: https://productpine.com

Dates: 04/2022 - Present
Project: **Brand management system, Design system**
Occupation or position held: Frontend developer
Technology: Vitejs, Cypress, Storybook, Jest, ChakraUI, React js, Typescript
Link: https://app.productpine.com, https://ui.productpine.com
